NOTICES.

GEYER'S SEWING-MACHINES HAVE OBTAINED AN EXTENSIVE REPUTATION.

They run wonderfully free and easy,
Make the PRETTIEST STITCH of any Machine in the World,
Sew either the Lightest or Heaviest Materials
Are elegant and modern in Design,
Beautifully Enamelled,
Handsomely Decorated in Mother-o'-pearl and Pure Gold, substantially made,
And most accurately fitted and adjusted.

They have more real improvements and attachments than any other Sewing-machine in existence.

BEFORE PURCHASING ANY OTHER COME AND SEE THESE MACHINES.

Over twenty different kinds.

THE LARGEST DEPOT IN INDIA.

Remember, a good Sewing-machine will last a life-time, and is a pleasure and profit to the owner; whereas an inferior Machine is about the greatest pest that can enter a household.

When a thoroughly reliable, easily managed, well-finished Sewing-machine is required, I fear no competitor, no matter how low in price the Machine may be offered.

After perusing the above, it will be quite evident to the Reader that being Importer of all the leading kinds of Sewing-machines known, I am in a very different position to firms who only import one class of Sewing-machine. It will be readily seen that I have no interest in pushing ONE MACHINE or ONE KIND OF MACHINE only, or in endeavouring to persuade intending Purchasers that one certain principle of Machine will do ANY and EVERY class of Sewing required.

My interest is identical with that of my Customers, and it is quite as much to my advantage, as it is to my Customer's advantage, that I supply THE VERY BEST KIND OF MACHINE that has ever been invented to suit the special requirements of each Customer.

I believe from the foregoing the Public will see that I am prepared to show them Sewing-machines constructed by all the *best makers yet known*, and universally acknowledged to be good and reliable, and that I am in a position, and have advantages to offer, unequalled by any Competitor in the Trade.

WEDNESDAY, MARCH 1, 1882.

THE parliamentary crisis has fairly set in, and once more the two Houses have joined issue on a grave constitutional problem. As we anticipated, Mr. Gladstone has been unanimously supported by his followers in resisting the House of Lords; and, no doubt, they will formally express their approval by voting the resolution which he submitted to the House of Commons last night. Party passion appears to be fairly roused, since Sir Stafford Northcote opposed, and took a division on, the question of postponing the orders of the day in order to give precedence to Mr. Gladstone's resolution. In the easy-going times when jaunty old "Pam" dexterously steered the Legislative bark, it was rarely that the House of Commons debated, much less divided upon, formal motions to "grant leave to bring in a Bill," or to "postpone orders" to clear the way for a Government resolution. To tell the truth, Lord Palmerston never brought in Bills if he could find a feasible excuse to keep them out, and he was more exercised in burking the resolutions of his impatient followers than in troubling the House with any of his own. In the present stormy times, however, all that is changed. The ingenuity of one party seems to be strained in devising obstacles to prevent legislation, and the other is prepared to resort to every species of moral and numerical force to beat down the opposition of

TELEGRAMS.

BRITISH AGENT AT KABUL.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, FEB. 28.

It is stated that Sirdar Mahomed Afzul Khan shortly proceeds to Kabul as agent of the British Government, the Amir having expressed himself anxious that our Government should be represented at his capital.

(FROM THE PRESS COMMISSIONER.)

CALCUTTA, FEB. 28.

Resaldar Mahomed Afzul Khan Bahadoor, C.S.I., of the 11th Bengal Lancers, has at the request of H. H. the Amir been appointed agent at Kabul for the British Government, and will start shortly to take up his appointment.

MYSORE AGRICULTURAL PROSPECTS.

Regarding Mysore agricultural prospects, the Resident telegraphs that there is no material change in the situation since December. The rains were not plentiful, but the crops did not fail, and prices are not high. The present condition is the natural consequence of a short rainfall last year. In certain places drinking water is rather scarce, and the spring crops will be short. There is nothing in the present circumstances to cause anxiety or alarm.

DISTURBANCES IN AFGHANISTAN.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, FEB. 28.

At Gild on Monday it was reported from Kandahar that Mushki Alam and the Khan of Andari Ghilzais fled from Kabul. Said Ameer intends visiting Herat this spring. Two Kabuli regiments in Kandahar are warned to be in readines to march on Herat after Naoroz. Din Mahomed Ahkozai and Ghulam Riza have been sent to Herat with messages for Abdul Kudus Khan, whom the Ameer now recognises as Governor of Herat. The Ameer has told the Kandahar chiefs who wish for service to send their applications after Naoroz.

THE SHEKOABAD RAILWAY ACCIDENT.

THE ACQUITTAL OF MR. WATTS.

The case against driver Watts was concluded to-day. The counsel for the prosecution after discussing about the objections made by the Court to certain evidence declined to call more witnesses. Justice Straight, after some observations on the weakness of the case against the accused, instructed the jury to return a formal verdict of not guilty, which they instantly did.

THE LORDS AND THE LAND ACT.

LONDON, FEB. 27.

At the meeting of the Liberal members to-day, Mr. Gladstone declared that he would allow nothing to impair the administration of the Land Act.

Mr. Gladstone's declaration met with the unanimous approval of the meeting.

In the House of Commons this evening, Mr. Gladstone moved to postpone the orders of the day, in order to bring forward his motion that a Committee of Inquiry at the present time into the working of the Land Act would defeat its operation, and be injurious to the interests of good government in Ireland.

Mr. Gladstone said a compromise would have been possible had the Lords agreed to exclude an inquiry into the judicial operation of the Land Act.

Sir Stafford Northcote opposed the motion of postponement.

The House eventually agreed to postpone "the orders" by 300 votes against 167.

LATER.

The orders of the day having been postponed, Mr. Gladstone moved his resolution censuring the appointment of a Committee of Inquiry into the working of the Land Act.

Mr. Gibson moved the previous question, and the debate was adjourned.

THE QUARANTINE IN THE SUEZ CANAL.

DEPUTATION TO LORD GRANVILLE.

LONDON, FEB. 28.

An influential deputation of the principal steamship owners yesterday waited upon Lord Granville, and protested energetically against the present vexatious quarantine regulations in the Suez Canal.

His Lordship said in reply that the matter was seriously occupying the attention of the British Government, and that the Foreign Office had not been idle, having communicated with other Governments more or less to indirectly use their best efforts to remedy the present almost intolerable state of affairs.

The present season at the Gaiety is very near its close, and the "benefits" will shortly take place. Miss Wilson will appeal to the public to show their appreciation of her management and her acting on Saturday next, and, we hear, she has chosen the burlesque of Aladdin to be produced on the occasion. Miss Wilson's management and her acting have been alike admirable, and she deserves to have, as she no doubt will have, a bumper house on the occasion of her benefit. Mr. Tapping, the popular comedian of the company, takes his benefit on Tuesday, the 7th March, for which event he has an excellent programme in contemplation, including a very amusing comic opera. Mr. Merer and his wife (Miss Kate Thoburn) are also to have a benefit, which is fixed for Thursday, March 9, when, it is announced, Mrs. Merer will appear as Jo.

The Surat Municipal Corporation, at their last meeting, passed a resolution expressing deep and sincere regret at "the melancholy intelligence of the demise of Lady Fergusson." The resolution states that the Corporation feel that in her death the native public of the Presidency have lost one who during her comparatively short sojourn in India took a warm and active interest in the amelioration of the condition of native females."

The reports of the Revenue and Agricultural Department on the state of the season and prospects of the crops throughout India for the week ending the 21st February are summarised in the following "general remarks":—Rain has again fallen in some districts of the Punjab, and the harvest promises to be good. Slight rain has also fallen in most districts of the North-Western Provinces and Oudh, and except in Benares, where unirrigated crops will be scanty, and in Fyzabad, where a small outturn of sugarcane is expected, prospects are generally favourable. In Bengal also some rain has again fallen in almost all districts, to the great benefit of the *rabi* and other standing crops, and has also facilitated ploughing. More rain is, however, still wanted in parts of Central Bengal and of the Chota Nagpore division. Some of the Central India and Rajputana States also report slight and partial showers, and prospects here are favourable. In the Central Provinces *rabi* crops are rapidly ripening and in places are being reaped. In the Bombay Presidency reaping is also progressing, as also in Berar and in the Nizam's Territories; scarcity of water is felt in parts of Dharwar and of Hyderabad. In the Mysore State standing dry crops are in good condition, but wet crops are still suffering from scarcity of water-supply: prospects are said to be fair except in parts where water and pasture are scanty. In Coorg the threshing of *ragi* has been completed, that of rice continues; price of coffee has slightly risen, but cardamoms still continue low and without a market. In the Madras Presidency prospects remain unchanged; the harvest is in progress and promises to be slightly under the average: in some districts the crops still standing are in need of moisture.

A report on the cultivation of cotton in the Madras Presidency has just been submitted to the Madras Government, from which it appears that the area under cultivation in the year 1881-82 exceeded that of the previous year by 141,329 acres. The increase was chiefly in the districts of Kurnool, Cuddapah, Madura, and Bellary, and was due to expectations founded on the large profits obtained in the previous year, and in some cases to a favourable season. The general result was not a success, the weather proving unfavourable. In some districts the rains were insufficient and untimely, and in others excessive, and the crop also suffered from blight. The cotton cultivated in the Madras Presidency is generally raised from the ordinary country seed. A small area in Bellary was planted with Bourbon cotton, but without success. The total estimated outturn of cleaned cotton in the year has been 434,928 cwts., valued at Rs. 97,07,916, being 8,717 cwts. in excess of the previous year. The average yield for the whole Presidency is 41lbs., which is less than the average of the two preceding years by one lb. The quantity of cotton exported to foreign countries was a total of 276,533 cwts., valued at Rs. 69,49,584, against 435,847 cwts., worth Rs. 1,15,44,636, in the preceding year, and that exported to foreign ports in India, interprovincial trade, and Bengal and Bombay was 89,354 cwts., value Rs. 22,69,787, against 72,451 cwts., value Rs. 18,98,046 in the preceding year.

The question of the day of departure of the English mails from Bombay was considered in London towards the end of last year, on a representation from the Government of India that the existing arrangement was inconvenient to Calcutta, and in connection with a request from the Postmaster-General of Victoria that the day of departure of the English mails from Melbourne also should be changed. The Government of India proposed that from the beginning of the present year the departure from Bombay should take place at 10·30 on Friday morning all the year round, or if that could not be arranged, that that day and hour should be fixed for the departure during the fair weather season, and that 10·30 on Tuesday morning should be substituted during the monsoon. The Victorian Post-office asked that during the period of the south-west monsoon the departure from Melbourne might be fixed for 1 p. m. on Tuesday, instead of Monday noon. The matter was referred to the Postmaster-General in London, who pointed out that "while either proposal is at variance with the requirements of this country as hitherto conceived, the two proposals are in themselves incompatible." At the suggestion of the London General Post-office, a committee was formed of representatives of the India Office, the Colonial Office, the Treasury, and the English Post-office to consider the whole question, with the result, as announced, that from the 10th March the mails will leave Bombay on Friday afternoon in the fair season, and Tuesday afternoon during the S. W. monsoon. The nominal time for the arrival of the Indian mails in London will be Monday afternoon during the monsoon, and Tuesday afternoon in the fair season, but it is calculated, on the experience of the past year, that the actual time of arrival will be twenty-four hours earlier; so that Calcutta may be satisfied with but very slight risk of inconvenience to the Scotch centres of industry, as whenever they arrive in London in time for despatch for the north on Tuesday evening by the mail-train, the letters will be delivered in Scotland in the course of Wednesday morning, and correspondence in Aberdeen would have up to 12·30, Dundee up to 3·30, and Glasgow up to 6 p. m. on Thursday to reply. We supposewe may now reckon upon a final decision of this vexed question of the mail departure day having been arrived at.

The writer of "The Week" in the *Englishman's Saturday Evening Journal* says of the new Legal Member that he has ascertained that Mr. Ilbert is a barrister of about thirty-seven years of age, and that his practice has been chiefly that of an equity draftsman, occasionally doing a little "devil's" work for Sir H. Thring in drafting bills for Parliament. "He had, I was told, very little practice in the courts, and was making at the outside £1,500 a year, and now he has dropped into the pleasant salary of Rs. 6,666 per month, with very little work to do for the money. I believe the Government of India was as much taken by surprise as any one else at the appointment, for they had suggested quite another man, and it has hitherto been usual to pay some attention to the wishes of the Government of India in making such appointments. The rule appears to be now that not only is India to be more governed every year from England to suit the views of political parties, but even such small matters as appointments are to be kept secret from the Viceroy and his Council until actually made. I do not for a moment suppose that such a thing is likely to happen, but how would it be with the newly appointed member if the Government of India refused to pass his pay bills?"

A correspondent who knew Mr. Ilbert the new Legal Member of the Viceroy's Council, at Oxford, writes to the *Pioneer*:—"He must be Mr. Courtenay Peregrine Ilbert, fellow of Balliol College, Oxford, Hertford Scholar. 1861, first classman in Moderations, and Ireland Scholar, 1862, first classman in Greats and Craven Scholar, 1864, Eldon Law Scholar, 1867. I remember him as President of the Union at Oxford; but the Presidency of the Union, though a distinction in its way, was a mere nothing compared to the distinction of winning the five University scholarships above named. Mr. Ilbert had the very highest reputation among his contemporaries at Oxford as a man of ability and culture."

The *Civil and Military Gazette* writes:—The rage for economy in military expenditure could not of course be satisfied without sacrificing some portion of the Native Army; therefore three regiments of cavalry and five of infantry, of the already attenuated Bengal Army, are to be broken up. A contemporary observes that this will not decrease the strength of the Army, because the men will be draughted into other regiments. This is rank nonsense; the regiments receiving the draughts will be only temporarily increased to their full strength, and will gradually find their level to the ordinary number of the establishment. Practically, therefore, an Army absolutely inadequate to its duties is to be further weakened by a decrease of eight regiments.

The writer of the *Pioneer's* weekly London article on "English Politics" writes:—Lord Lytton's views respecting the licence-tax are likely to be fulfilled sooner than he perhaps supposes. There will be no re-imposition of the income-tax next year, but you may certainly expect a substantial increase of the licence-tax.

ENCOURAGEMENT OF INDUSTRIES.

The following Resolution of the Government of India is published:—

"In Resolution No. 3780 of 21st October the Chief Commissioner of Assam was told that swords required for the Police should be obtained of Indian manufacture instead of being procured from England. He was at the same time informed that swords of better quality than those ordinarily made for trade purposes in England were manufactured by native armourers in the Punjab and the North-Western Provinces.

The Government of Bombay having about the same time sent to the Secretary of State for India an indent for sword required for the Bombay Police, the Secretary of State enquired whether suitable swords for such services could not be purchased in India at a cost equivalent to the estimate given in the indents. The Government of Bombay reported that good country-made swords could not be procured at the price mentioned. The Secretary of State accordingly sanctioned the supply of swords from England.

A copy of this correspondence having been obtained from the Government of Bombay, enquiry was made of the Governments of the North-Western Provinces and the Punjab as to the sources whence swords for the Police in those Provinces were obtained. From the answer received from the Government of the Punjab it appears that all sergeants and men of the local Police are armed exclusively with Indian-made swords, that good weapons can be made in almost any district of the Province, and that skilled workmen are to be found in the districts of Gujrat and Gujranwala.

The Governor-General in Council accordingly requests that, in future, swords required for the Police and other departments may be procured of Indian manufacture in communication with the Inspector-General of Police in the Punjab, if they cannot be made within the local limits of the Presidency or [illegible] concerned."

Vessels sailed.—The following vessels sailed yesterday:—Tentonia (s), for Trieste, &c; Timor (s), Liverpool; Harves (s), Havre; Ossian (s), Port Said; Chupra (s), Juddah, &c.

Music at the Apollo-bunder.—The following programme of music will be played by the band of the Bombay Volunteer Rifles at the Apollo-bunder this evening:—

Quick March	The Scout	C. Quinn.
Overture	The Bohemian Girl	Balfe.
Scena e Duetto	Il Trovatore	Verdi.
Valse	Violettes	Waldteufel.
Polka	Marlow	Kühner.
Galop	Bald da Bald Dort	Faust.

GOD SAVE THE QUEEN.

An Old Offender.—Dhakoo Bapoo was yesterday committed by Mr. P. Ryan to take his trial at the next Criminal Sessions of the High Court, on a charge of theft from a Hindoo temple of two pairs of shoes, valued at Rs. 2, the property of Shewlal Nemchund and Mungaldas Nagindas.

A Dishonest Servant.—Josey Kistoje Fairoa, a domestic servant, was yesterday convicted by Mr. Dosabhoy Framjee of stealing a currency note for Rs. 50 and a silver pin, valued at Rs. 6, the property of his master, Mr. J. C. Vaz. He was sentenced to four months' rigorous imprisonment.

Cutting his Wife's Nose.—Anajee Gunput was yesterday convicted, upon his own admission, by Mr. P. Ryan of voluntarily causing grievous hurt to Jain, his wife, by cutting her nose with a knife on the 31st December last. He was sentenced to eight months' rigorous imprisonment.

A Vagrant in Trouble.—James Pickering, a vagrant, was yesterday convicted by Mr. Dosabhoy Framjee of failing to return to the Government Workhouse on the expiration of the leave granted him by the Governor of the Workhouse. The prisoner having repeatedly committed an offence of this nature, he was sentenced to one month's rigorous imprisonment.

Cheating.—Moideen Kadur, a noted character, was yesterday convicted by Mr. Dosabhoy Framjee of deliberately inducing Shewa Amroota to deliver to him four *sarrees*, valued at Rs. 7-8, and Rs. 3 in cash, by a false representation. The prisoner pleaded guilty to two previous convictions of a similar nature. He was sentenced to twelve months' rigorous imprisonment.

The Anjuman-i-Islam.—Whoever is really the founder of the Anjuman-i-Islam, history will not forget his name or his services. At present none claim the title for Hajee Goolam Mahomed Moonshee; and his critics do not deny that he was the first to suggest its foundation. But whether he or anybody else be the founder, it is to be hoped our Mahomedan friends will cease to catch at straws of this kind in future, and look to the serious part of the work before them.—*Indu Prakash.*

Mr. Baxter, M. P., and his Critics.—One would be curious to know what Mr. Baxter himself thinks of this little affair,—the little invention of "Mr. Grant Duff's letter," the effect of the word "agitate" on some minds, and the acerbity with which he has been misrepresented for using that word. We should not be surprised if all this convinces him more than ever that the Indian official hates the light of criticism—and, above all, likes to be let alone, as an irresponsible being.—*Id.*

A Native Traveller.—A number of the friends and acquaintances of Mr. Damodardas Govindas met together in the evening in the Dnyan Vardhak Library, in Bazaar Gate-street, to hear that gentleman's narration of his recent travels in Europe and America. Mr. Damodardas expatiated at some length on the various advantages, commercial and intellectual, of travel, and exhorted his brethren to break the bonds of caste prejudices, and enrich their stock of observation and experience by crossing the Kalapani. Mr. Damodardas was excommunicated by the superstitious members of his caste soon after his return from his tour; but he said that he would rather call himself a citizen of the world than restrict himself to "the mental seclusion," the narrow limits, imposed by his caste. Mr. Damodardas showed his friends the coins and currency notes used in different parts of the world, a copy of a Japanese newspaper, and such other curiosities which he has brought home. The address was listened to with great interest. A Hindoo gentleman, named Mr. Jugmohundas, also addressed a few words to the assembly, commending the enterprise and public spirit evinced by Mr. Damodar.

Frere bye.

This tie will be played to-day, and the final tie will be played off on Thursday afternoon.

WEDDING AT "BYRAMJEE HALL."

Last night the marriage of a daughter of Mr. Nanabhoy Byramjee Jeejeebhoy to the son of Mr. Hormusjee Eduljee Allbless, the festivities held in connection with which were noticed in our issue of Monday last, was celebrated at "Byramjee Hall," the residence of Mr. Byramjee Jeejeebhoy, C. S. I., grandfather of the bride. The guests invited to attend the marriage procession, as well as the bridegroom in the evening, began from 6·30 p. m. to assemble in the compound of "Byramjee Hall," where they were received by Mr. Byramjee Jeejeebhoy, his son, grandson, and their intimate friends. Some fifteen hundred chairs had been placed for the accommodation of the guests in the passages along the flower-beds in different parts of the grounds of the house. The officers of the Bombay Volunteer Rifles, and of the Marine Battalion, as well as a private band, played by turns for the amusement of the guests. By 6 o'clock the spectacle of a vast assemby, the members of which were uniformly clad in white flowing garments, with their head-dresses of varying colours and descriptions, was unique in its character and interest. In the compound in front was the ceremoniously dressed Zoroastrian sitting side by side with a professor of the Mahomedan faith clothed in silken garments; further on might be seen the mild Hindoo speaking laconically to a Mogul or a Persian merchant by his side; and there the business-like Khoja talking in no low accents to a Battia neighbour. In fact, every class of the native community seemed to find its representative in the spacious "Byramjee Hall." Another assembly, on a modest scale, had met at the "Parsonage House," where the bridegroom and his friends were temporarily accommodated. Soon after the hour mentioned the marriage procession, starting from the "Parsonage House," entered upon the grounds of Mr. Byramjee's bungalow. It was headed by a native band, playing; and Parsee ladies attended in costly silks and satins, and the richest jewellery at their command formed the van of the procession. Seats had been reserved for the members of it, in addition to those who were already present on the grounds. When the bustle and excitement consequent on two large assemblies merging into one had subsided, the marriage ceremony was commenced in the lower hall by Khan Bahadoor Dustoor Nusserwanjee Jamaspjee, a first-class Sirdar, and high-priest of the Parsees of the Deccan, who had been specially invited to Bombay as a guest of Mr. Byramjee Jeejeebhoy. The Hindoo and Mahomedan guests then left the bungalow with presents and bouquets of flowers, pan-soparee, and cocoanuts; and their example was followed soon afterwards by the Parsees, who, however, returned for dinner after greeting and paid their cumbersome and flowing gowns and tight waist-bands. The ladies were the first to dine in the spacious *marquée* pitched on the south-eastern portion of the grounds of the bungalow, the gentlemen dining after 8 o'clock. A large portion of the guests then left; but there were many who stayed behind to attend the second marriage ceremony. For the amusement of the latter, three companies of dancing-girls were engaged, and sang in the upper rooms. The repast—meat *buffets* provided on the ground-floor were too tempting to thirsty throats to be left unnoticed for any length of time; and thus between the entertainment in the upper rooms and the refreshments in the lower ones, the time of the guests glided imperceptibly away until about 2 o'clock this morning, when the second marriage ceremony was performed by the same Parsee high-priest. All the guests dispersed at about 3 o'clock this morning, when the wedding festivities and ceremonies terminated. The illuminations inside and outside the bungalow, as well as over the garden grounds, were as costly and extensive as they were on the Saturday evening preceding.

THE KOLHAPORE DEFAMATION CASE.

At the Fort Police Court yesterday, before Mr. Webb, Sadashew Pandurang Bhide, *alias* Nana Bhide and Keshow Narayen Bakhle, the editor of the *Kesari* newspaper, appeared to answer a charge of defamation laid against them by Rao Bahadur Wasadeo Hurry Gokhale, State Karbaree, Kolapore.

Mr. Little, of Hearn, Cleveland, and Little, appeared for the prosecution, and Mr. Pherozeshah Mehta, instructed by Mr. Thakoredas, appeared for the defence. The information against accused was read out to Mr. Harve by the magistrate, and signed by the prosecutor.

Col. William Chase Parr repeated the evidence which he gave last week in the case against Mr. Tilak. He stated in addition that he had had occasion to find Nana Bukhter, the father of the second accused.

Mr. Pherozeshah reserved his cross-examination.

The information against Gopal Gunesh Agarkur, editor and publisher of the *Kesari*, was then read.

Col. Parr was called on to sign recognizances to appear at the Criminal Sessions.

Col. Parr said.—Have I no option in signing this?

The magistrate.—I am afraid not.

Col. Parr.—What would happen if I did not?

The magistrate.—I cannot say. You had better take the advice of Mr. Little.

Mr. Little.—I am not Col. Parr's solicitor.

Col. Parr signed the recognizances.

Col. Parr then gave evidence similar to that given against the other accused. He added that he had never known Mr. Harve to be guilty of any treasonable, cruel, murderous, and censurable conduct. He did not know that Mr. Barve was a bitter enemy who wished the ruin of the Maharaja. Mr. Barve's conduct towards the Raja was very kind and considerate; so was that of Mr. Cox and Sakabai.

Cross-examination of the witness was reserved.

By Mr. Little.—It is my intention to proceed to Europe to-morrow.

Mr. Pherozeshah.—Is it your intention, after stating that, to enter into recognisances for your appearance at the Sessions.

Col. Parr.—Am I to answer that question?

The magistrate.—Yes, Col. Parr,

Col. Parr.—If the magistrate obliges me I shall.

The case was then adjourned until to-day.

CHARGE OF DEFAMATION AGAINST A PARSEE EDITOR.

At the Fort Police Court yesterday Mr. Hurmusjee Shapoorjee of Messrs. Ardasir and Hormusjee, appeared on behalf of Mr. Kaikhosro N. Kabraji, editor of the *Rast Goftar*, and filed the following information against Mr. Muncherjee Cowasjee Lungra, editor of the *Satya Mitra*, a weekly newspaper, charging him with defamation, criminal intimidation, and insult:—

I am a journalist, and editor of (amongst other periodicals) the *Rast Goftar and Satya Prakash*, a weekly Gujarati newspaper published in Bombay. As such editor I have had on various occasions to express in the said newspaper my views about the conduct, so far as evidenced, his public productions warranted by facts, and in so far as the same were justified on public grounds, but not further or otherwise, of one Muncherjee Cowasjee Lungra, *alias* Munsook, the proprietor and editor of (amongst others) a weekly Gujarati newspaper called the *Satya Mitra*. In consequence I believe of the views so expressed, or some of them, and with intent, as I believe, to deter me from continuing to express the same or similar views, the said Muncherjee Cowasjee Lungra has been for a long time past publishing, and did down to the 1st day of January last publish, in the said *Satya Mitra* newspaper divers false, malicious, and scandalous imputations regarding my character, aims, pursuits, and calling, and regarding the character and reputation of those in whom I am interested, especially my eldest daughter, a spinster of the age of 17 years. The imputations concerning my own character, pursuits, and calling are contained in (amongst others) the issues of the said *Satya Mitra* newspaper which, with copies of the English translations of such portions thereof as concern my daughter, are hereunto annexed and collectively marked (B). In the said issues of the said newspaper marked (A) and divers other issues of the said newspaper, the said Muncherjee Cowasjee Laugra has falsely, and with intent to harm my reputation, and to deter me if possible from doing my duty as a journalist, made as regards me the following imputations, namely, that in all that I have done and am doing, whether as such journalist, public writer, promoter o literary and scientific institutions and societies, and as a promoter of social reforms, I have been and am actuated by corrupt, venal, and sordid motives, and that I have been practising upon the credulity and simple-mindedness of others for purposes of personal profit and advantage at the expense of truth, modesty, and propriety of conduct, and on reference to the said newspapers marked (A), among others will more fully appear. As regards the imputations concerning my said daughter, I say that in or about the month of August, 1880, I learn from some of my intimate friends that for some time then past a rumour which, I say was utterly false, was going chiefly among the Parsee community of Bombay affecting the character of my said daughter, and that my said daughter had in consequence been sent away to Multar (at which place I have a brother named Nadarshaw,) there being not the slightest truth in, or foundation of any kind whatever for any portion of such said rumour. As soon as the existence of such rumour was made known to me I took all suitable means to falsify and give the lie to the same; notwithstanding the said Muncherjee Cowasjee Lungra did on divers occasions between the 29th day of August, 1880 and the 6th day of November, 1881, maliciously publish in his said newspaper the insinuations, hints, and suggestions with the effect of giving wider circulation to the said rumour, and of keeping alive and perpetuating and aggravating the same, as on reference to the said newspapers and translations hereup to the same marked B. will more fully appear. I say that all the said several imputations regarding me and my said daughter have been made with intent to harm my reputation, and with intent also to deter me from doing my duty as a journalist and a citizen. I therefore charge the said Muncherjee Cowasjee Lungra under sec. 500 of the Indian Penal Code with defaming me, and I also charge the said Muncherjee Cowasjee Lungra under sec. 506 of the said Code with intentionally insulting me with intent to provoke a breach of the peace, and also under section 506 of the said Code with criminal intimidation, and I pray that the said Muncherjee Cowasjee Lungra may be dealt with according to law.

The magistrate remarked that the writings were clearly defamatory, but the question was, whether they were directed against the complainant.

Mr. Hormusjee said that he would call respectable witnesses to depose that the defamatory remarks were directed against the complainant and the members of his family. There were no names mentioned but the insinuations and innuendoes clearly referred to his client.

The magistrate.—Is it a widely-circulated paper?

Mr. Hormusjee.—We hear the paper has about a couple hundred subscribers. It is published in the Parsee community with regard to the scandals published in that paper has forced my client to come to court and clear his character. Unless such low and vile papers are made examples of there will be no end to such scandals. The persecution, as would be observed from the exhibits, had been carried on for two years.

The magistrate remarked that it appeared to him that it was so skilfully carried on that there was probably no tangible proof of the libel.

Mr. Hormusjee said that cowards as a rule did not mention things in so many distinct words, but by the general tenor of the writings and disgraceful allusions in regard to persons whom they chose to libel. Mr. Kabraji had shown considerable patience in suffering himself to be persecuted so long by the accused. It would be observed from the exhibits that even ladies attending the concerts given by the complainant had been attacked in a most shameful manner. The Act contemplated that in a case like the present a warrant should be issued, but he (Mr. Hormusjee) would be content with a summons.

The magistrate then ordered a summons to be issued against the accused, making it returnable on Thursday, the 16th instant.

BOMBAY MUNICIPAL CORPORATION.

An adjourned special general meeting of the Corporation was held on Monday afternoon for the conclusion of business, which was whether or not they were prepared to accept the offer of the Government unconditionally and without any qualification. But if they wanted time, they might appoint a committee to consider whether it was desirable to purchase the Town Hall, and if so, on what terms.

Professor Peterson here withdrew his amendment.

Mr. Dinanath R. Khote also withdrew his.

Mr. Raghoonath Khote said that in order to bring the discussion within a narrow sphere, he, with the concurrence of his seconder, Mr. Geary, begged to withdraw the amendment proposed by him in favour of that of Mr. Mehta.

Mr. Geary, remarking that professional assistance would be very desirable, suggested that Major Merewether should be appointed to serve on the committee proposed by Mr. Mehta.

Mr. Mehta said he had no objection to accept this suggestion.

Mr. Cook said that in laying his original proposition before the Corporation, he was simply reproducing the decision which the Town Council had come to almost unanimously on the subject. It was decided that their Municipality should have a local habitation of their own. But as the purpose which he had in view would be answered by the amendment proposed by Mr. Mehta, he had no wish to force the Corporation to any particular line of action. He therefore withdrew his proposition.

The Chairman said he was very glad that after a lengthy discussion the original proposition and the several amendments had been withdrawn in favour of that proposed by Mr. Mehta. The proposed committee would have to consider whether it would be best to build new Municipal Offices, or to arrange with Government to have the Town Hall on the most favourable terms possible. There was no doubt that if they would have a new building, they must also have a public hall quite in keeping with the dignity and importance of the first city in India. Such a building would cost from five to ten lakhs of rupees, and it was a question whether in view of the drainage and other works—he might also mention the building of suitable police lines—they were in a position to vote such a large outlay on the proposed offices. There was a great deal to recommend the Town Hall to their requirements, and the Chairman hoped that the Government would be very reasonable, as they generally were, in their terms offering the Town Hall. He thought that the appointment of a committee would save them a good deal of time.

Mr. Mehta's amendment was then put as a substantive resolution, and carried unanimously.

THE SURFACE DRAINAGE SCHEME.

Dr. Cook introduced the Town Council's resolution, dated 10th instant, recommending the Corporation to sanction the immediate completion of the surface drainage scheme in its entirety as described in the Municipal Commissioner's letter, and that application be made to Government for permission to raise a loan of Rs. 8,11,250, being the balance required for the completion of the scheme, to be borrowed from time to time as the Town Council may find necessary. The Municipal Commissioner had, he said, for the second time during his tenure of office, laid before the Council and Corporation a letter which had been circulated to all the members, and this letter afforded a grasp of the whole subject of surface drainage, and commanded not only the attention of the Corporation, but as much thought as could be brought to bear upon it. The subject had been more or less before the Corporation for the last ten or twelve years, and during that time the chief points had been pretty well recognised, and he thought he might say that to a certain extent they had been sanctioned. What the Commissioner had done for them was to gather up the various points in the discussion, and lay before them a connected scheme. Much had undoubtedly in the last few years been thrown upon the subject, and alterations had become necessary in consequence of changes through the agency of the works in hand. The geological formation of the Island of Bombay had been graphically laid before them in a plan, which he hoped they had all looked at, and a model constructed by Mr. Walton. A city built upon an island ought to have special advantages over one built inland; nevertheless the geological formation of Bombay caused much difficulty and expense. They would see on looking at the model that in the centre of the island, or nearly the centre, was a track which ran up the centre of the city, and reached the lowest point about Khetwady, and ran thence to the Flats, which occupied a very important part of the island on which houses had been built, and which would speedily be covered. Year after year the difficulties of the case had been brought most vividly to their conception by the condition of that portion of the island during the annual rainfall. The water necessarily collected in the lower parts to a great depth of some feet in the rainy season, swamping the subsoil and bringing about a number of evils. This, however, was not altogether the whole of the difficulty. The water which thus collected was not pure water, and in consequence of the percolation of sewage and foul matters, it had become sewage in the full sense of that term. This sub-soil, saturated with water which was sewage in itself, constituted a very great danger. The very improvements which had been recently made by giving the city a purer and freer water-supply had added to the difficulties which surrounded them in that particular matter. For of the twelve to thirteen millions of gallons of water brought into the city every day, the greater portion found its way into the subsoil, and unless something was done to remedy the evil, it would result in great mischief. He would not go very deeply at length into this part of the subject, except to say that there were two chief diseases which were directly connected with a wet subsoil; and he was not telling them anything new, when he said that it was set down in all the books of hygiene, and it had been known to their forefathers, at least to the British forefathers, that to build a house on a damp sub-soil was to render it unhealthy. In that circumstance the health of the city must be materially affected. Their experience showed that the two diseases which originated from dampness where chiefly fever and phthisis. These were the two diseases which, unfortunately, combined to raise the death-rate of the city. In fact, they accounted for one-half the deaths of the city, and probably still more deaths might be traced to that source, if the mortality of Bombay were accurately registered. Roughly speaking, about seven thousand died from remittent fever and three thousand from consumption and phthisis; but the latter disease was but little recognised by the illiterate classes of people, and several deaths which were set down as resulting from diarrhœa and fever were really due to the ravages of that disease. But the speaker felt sure that if the causes of deaths were more accurately known, many more than three thousand deaths would be accounted for by consumption. As matters stood, the deaths from fever and phthisis reached one-half the total figure; and it could be shown that the major portion of those deaths was directly deducible from certain causes, then he thought they must promptly lay their finger on this the most serious blot in the matter of the health of the city, and try every possible means to remove it. If they removed the evil, they would be doing the greatest benefit which they, in their capacity as caretakers of the city in general, could possibly do. By removing the evil they would save a large number of people from untimely death, and put an end to the distress caused by disease and death among their working poor. The Commissioner, in his letter, stated that the subject of the surface drainage had been prominently brought forward as far back as 1868 by Major Tulloch; that again in 1873 Mr. Pedder had made some excellent proposals for the improvement of the health of Bombay; and in 1875 Dr. Cook had had the honour of emphasising what had been previously said, and to a certain extent bringing the scheme forward in a tangible form, in a paper which he had laid before the Town Council. Several lakhs of rupees had been borrowed for the purpose of commencing the improvements. A portion only of the money having been spent, the balance at this day stood at about four lakhs. The Commissioner had also shown very clearly that the sewage drainage scheme must be kept entirely separate from the sewerage scheme; and all of them who had read through the letter would agree with him that so long as scientific research went, it was clear that they must have a double system of drainage. Mr. Forde and Mr. Walton brought forward in the month of July a final scheme which comprised four essential points. The first was the diverting of the storm water, which, as it came down from the Malabar and Cumballa hills, at present found its way into the low-lying districts. The water was proposed to be diverted into a reservoir to be built upon the Flats. The second point was, raising the level of the low-lying districts. The main drainage was the construction of sewers, and lastly, a system had been proposed of receiving the water into a reservoir to be constructed on the Flats. Dr. Cook suggested that the reservoir should not be constructed behind the Vellard, as it had been proposed to be done, but that it should be placed a few hundred yards further on more solid ground. For the purpose of the scheme, it was proposed to raise a loan of Rs. 8,11,000 and odd, to be borrowed from time to time as might be thought necessary. The speaker concluded by saying that if they wanted to derive any material good, if they wished to remove the great evil which now existed, they must take the whole scheme in hand, and carry it out in its entirety. A policy of hesitation and indecision would leave them where they were. Indecision had been graphically described by Shakspeare in one of his famous passages, which he would quote before he resumed his seat:—

"And thus the native hue of resolution
Is sicklied o'er with the pale cast of thought,
And enterprises of great Pith and moment
With this regard their currents turn awry,
And lose the name of action."

The Corporation then adjourned until to-day.

HOTELS.

ALEXANDRA HOTEL AND PINTO'S HOTEL, MATHERAN.

MR. J. X. PINTO, son and successor of the late J. C. PINTO, the Proprietor of the both well-known Hotels, respectfully begs to inform the public that the above Hotels are now OPENED to VISITORS. There are seven separate Bungalows attached to the Hotels, well adapted for Families, for whose comforts every care is taken. The Hotels are well situated, occupy a central position, and are therefore very conveniently placed within the reach of several POINTS, and Gymkhana, and in a breezy locality under the shed of large trees, which diminish the glare and keep the extensive compound always fresh and cool, making it specially agreeable during the hot SEASON.

Trusting in the experience of more than a dozen years in the management of the Hotels under this late father, he solicits that he will receive the same patronage which the public have hitherto generously shown to his late father.

SMALL PROFITS AND QUICK RETURNS

FROM A PIN TO A BRAZILIAN DIAMOND.

To be had at

The Travelling Bazaar in a Tent opposite the Crawford Market.

THIS ESTABLISHMENT has just ARRIVED from the Continent of Europe with a splendid assortment of Millinery, Drapery, Gloves, Boots and Shoes, Hosiery, Hats, Ladies and Children's dresses, Gentlemen's ready-made clothing manufactured in France, and specially made to suit the Indian climate (complete suit from Rs. 12) Shirts, Collars, Neckties and Hats. Gold and Silver Jewellery and Watches, Fancy Goods, Toys, Optical Goods, Wall, Table, and Hanging Lamps, Mirrors of all sizes, Oleograph paintings, Trunks, Travelling Bags, Hand Bags, plain and furnished for ladies or gentlemen, and a great variety of other useful and fancy articles too numerous to mention.

As it is the positive intention of the proprietors of this Bazaar to get rid of their very large stock by the end of this season (March), it is hardly necessary to remark that all sales, whether wholesale or retail, will be made strictly on the principle of small profits and quick returns, and it may safely be asserted that as regards variety and quality of goods this establishment stand second to none in Bombay.
